A striking and unique look to this craftsman influenced home is a short, stone water table that leads to the porch. This focal point entry is bookended by stone piers and double columns holding up a slightly arched porch breast. A wood porch railing completes the look.

Inside this three bedroom, two-and-a-half bath home is an open floor plan perfect for everyday living and entertaining. The master suite has a large walk-in closet and his-and-her sinks. On the other side of the home you'll find two additional bedrooms, so everyone has their own space. A laundry/mudroom off the garage maximizes storage and minimizes messes.
