DESIGNER COLLECTION

One Story 2,269 sq.ft. **3 bdrm** **2.5 bath**

A classic American Heritage Homes floor plan re-imagined and updated for today's lifestyle!

A large kitchen is open to the family/dining area. The walk-in pantry sits perfectly in the space for easy access. The master suite includes a large walk in closet, dual sinks, a freestanding Jacuzzi soaking tub with picture window above and a 5' shower. Two additional bedrooms can be found on the opposite side of the home, as well as a flex room that could function as another bedroom or office.

The exterior features vinyl board and batten siding and black windows adding a traditional, yet contemporary touch to this farmhouse plan.

64' WIDTH / 52' DEPTH
